## Just The Facts #2 Body Weight - Commercial Hen Comparison

Does breed really matter? It certainly does when it comes to feed conversion but what about body weight? Based on a survey of over 1,500,000 hens, Hybrid's body weight advantage is clearly demonstrated.

Effect of breed on body weight of hens  
(Age - 94 days)

What does this mean to you?

- ✓ Fewer days to reach market weight
- ✓ Reduced costs

If you are interested in maximum profits ...ask your Poult Supplier for Hybrids!
